ABOUT ME

Recent BTech graduate in Computer Science and Engineering with a foundation in software development, web technologies, and AI. Experienced in building full-stack web applications and AI-driven solutions through hands-on academic and personal projects. Skilled in problem-solving, coding, and collaborating in team environments. Eager to contribute to innovative software solutions and grow in a dynamic, technology-driven organization

PROJECTS

- **Personal AI Assistant with Face Recognition** : Built a smart assistant using Python with Dlib for face recognition and voice-based automation.
